

**Types of Nuclear Industry Jobs
Commercial and Government Sectors**

Professional Category	Technician Category	Engineer Category	Craft Category
Chemist	Chemistry Technician	Chemical Engineer	Boilermaker
Craft/Technician Trainer	Electrical Technician	Civil/Structural Engineer	Carpenter
Emergency Management	Engineering Draftsman	Computer Engineer	Cement Mason
Health Physicist	Environmental Technician	D&D Engineer	Electrician
Information Technologist	Health Physics Technician	Electrical Engineer	Heavy Equipment Operator
Licensed Operator	Instrumentation & Control (I&C) Technician	Environmental Engineer	Insulator
Occupational Safety Specialist	Laborer (Nuclear Technician)	Fire Protection Engineer	Iron Worker
Operator Training Specialist	Mechanical Technician	General Engineer	Laborer
Radiochemist	Non-Destructive Examination (NDE) Technician	Instrumentation & Control (I&C) Engineer	Machinist
Records Management	Quality Control (QC) Technician	Materials Engineer	Millwright
Research Scientist/Engineer		Mechanical Engineer	Pipefitter
Software Developer		Nuclear Engineer	Rebar Worker
		Systems Engineer	Sheet Metal Worker
